

Le mer Public School, Thriprayar

Annual Report 2020-'21

It is my pleasure to present the annual report of the school for the year 2020-2021. The school was established in June 2005. Through 16 years of togetherness, team work, dedication and commitment Le mer is one among the prominent educational institutions of Thrissur district. I thank Almighty God for the blessings showered upon this institution and its stake holders during the course of its journey. I thank our Chief Patron Padmasree M. A. Yousaffali for his support and guidance in the development of Le mer.

Education is a team work. It is constructive discipline that aims at grooming the future global citizens as true human beings. Here the role of parents and teachers is very important. The goal can be achieved by their joint effort only.

The COVID-19 lockdown situation took ourselves unaware and our teachers' relentless work to provide offline classes and online doubt clearing class through our Le mer platform can't be forgotten. Parents' support and cooperation has always been immense.

At school various scholastic and co-scholastic activities are scheduled in a sequential order throughout the year. It is a blend of conceptual learning along with entertainments for the mind and body of the students. A replica of what Le mer does for the students is reflected in this Annual Report.
